Warut Wattanakijrungroj (Tan)

Frontend developer

Sydney, Australia (+61) 433-448-083 itanprscritical@gmail.com

WORK EXPERIENCES_____

Accenture Solution Inc.   November 2022 - April 2024

Senior Frontend Developer (Outsourced to a Bank)

Open api teams

- Led the development of an OpenAPI portal using NextJs and TypeScript, Tailwind to enabling third-party developers to seamlessly integrate with the bank's APIs.
- Developed a client dashboard and sandbox ui with React and Redux, allowing third-party clients to monitor API usage and manage their credentials efficiently.
- Optimized application performance through code-splitting, lazy loading, and server-side rendering, reducing page load times.

Corp bond teams

- Led the development of a Corp bond product using ReactJS, MaterialUI and react query to display a price chart and using as a web view in Bank application

Freelance Web Developer   October 2021 - November 2022

- Developed a customer information platform using React and Strapi, enabling users to submit information and receive customized product examples; deployed the application on GCP
- Implemented the frontend of an order management system with React, integrating backend services; connected multiple third-party postal service APIs for real-time order management, included role-based authentication for different user roles, and deployed on GCP.

SWAG EV Inc.   April 2020 - October 2021

Manager of Technologies development

- Leading the team to develop Electric vehicle including company website , product software and hardware to meet the company strategies and customers requirement

True Corporation   July 2018 - April 2020

System analysis & Management trainee program

- Collaborated with business and technical teams to design system specifications for postpaid services.
